A conservation strategy for the transboundary Prespa basin

Why an NGO transboundary conservation strategy?
- Ineffective state cooperation
- Quadrilateral Prespa Park Agreement not ratified

Geographical scope

How?
Open Standards for the Practice of Conservation

What will it serve?
- Coordinate conservation efforts
- Implement joint activities
- Achieve common targets
- Ensure support of international organisations
- Create synergies in fundraising

Conservation focus points:
- Water and wetlands
- Pelicans and other priority waterbirds
- Important and endemic fish
- Forests
- Large carnivores
- Grasslands, HNV farmland and agro-biodiversity
- Landscapes
- Bats and caves
- Wild plants

Vision:
“The natural and cultural identity of Prespa and her people is sustained now and in the future”

“Η φυσική και η πολιτιστική ταυτότητα της Πρέσπας και των κατοίκων της θα μείνει ζωντανή τώρα και για το μέλλον.”

“Натурна и културна идентичност на Преспа, како и нејзините жители, се нешта што ги чуваме, и ќе продолжиме да ги чуваме во иднина”

Joint Strategies:
- Sustainable management of water
- Sustainable management of forests
- Sustainable and traditional farming
- Transboundary cooperation
- Wildlife monitoring
